Dear Sir:

Pursuant to 37 CFR 1.56, 1.97 and 1.98, the attention of the Patent and Trademark Office is hereby directed to the English-language references listed on the attached PTO/SB/08. It is respectfully requested that the information be expressly considered during the prosecution of this application, and that the references be made of record therein and appear among the "References Cited" on any patent to issue therefrom. Copies are provided.

This will certify that each item of information contained in this information disclosure statement was cited in a communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of this statement. Specifically, these documents were noted in a search report dated November 24, 2005 from the Australian Patent Office (ASR) and an accompanying Written Opinion discussing the perceived relevance of these documents in connection with the corresponding SG application.

An attachment to the Search Report shows Patent Family Members for the cited documents. It appears from the attachment that: EP 1 085513 corresponds to JP 2001-160945 previously of record as Document BB in the IDS filed with this application, and EP 0847195

corresponds to WO 9713361 previously of record as Document BA in that same IDS. It may also be noted that each of the three cited documents here has a corresponding US patent family member.

Please take this information into account in the initial examination of this application along with the information previously provided and that contained in the Background of the Invention in the application as filed, and make their consideration of record.

Dated: 2/3/04

Respectfully submitted,

By

Ronald P. Kananen
